TRACKER Reporter

Save time, save money and gain complete control of your fleet.

When there's a direct

Here at TRACKER we understand all the issues you have to deal with on a daily basis. That's how we know that TRACKER Reporter could revolutionise the way you manage your fleet.

Save Time

Once you have units fitted into each vehicles in your fleet, the reports you'll receive will mean that there are many time-consuming tasks that will no longer need doing. For example, doing the payroll and job costing will be so much easier and quicker, and your staff won't be having to spend valuable time filling in their time sheets.

Best route to keeping control

Save Money

It will be simple for you to check the efficiency of the routes your drivers are taking, so you can make sure they're being as productive as possible. You'll also be able to find out things such as vehicles that are over or underused so you can even up wear and tear, and minimise leasing costs. There are many areas where you'll find knowledge will have a huge impact on profitability, and TRACKER Reporter will make these obvious to you from day one.

Gain Control

Knowing what your fleet is doing is imperative for your company to run at its most efficient. All the information you'll receive will make control easier, from being able to verify driver timesheets and mileage, to monitoring and controlling out of hours usage. In turn, this will allow you to make better, informed decisions.

Reports at a glance

» Verify timesheets and mileage claims – with Travel Reports

These detail the journey of each vehicle showing start and stop time together with journey, distance, duration and stop duration. This enables you to:

- *Verify driver timesheets and mileage*
- *Check efficiency of routes taken and length of visits*
- *Confirm compliance with Working Time Directives*
- *Option to include details of text messages sent to and from the drivers mobile phone*

» Accurately analyse the profitability of each job – with Travel Cost Reports

These use the Travel Report and figures relating to vehicle type, fuel consumption and running costs to calculate costs of completing a job. This means you can:

- *Bill customers accurately and ensure profit margins*
- *Determine the relative value of your customers*
- *Analyse the impact on costs of changing vehicles, wages or fuel consumption*
- *Analyse driver efficiency based on speed and routes*

» Plan and optimise your fleet activity – with Fleet Utilisation Reports

These show the activity of the entire fleet over your chosen time period. This helps identify:

- *The number of vehicles on the road at one time to verify optimal fleet size*
- *The amounts of idling or stationary time to check the time taken to complete deliveries or service visits*
- *Vehicles that are over or underused to even up wear and tear and minimise leasing costs*

» Monitor and control staff costs and fleet usage – with Time Sheet Reports

These summarise the weekly activity of an individual showing start and stop times, including time stopped and travelled as well as the distance travelled. Where shifts operate, then a specific shift pattern can be set in the report. This enables you to:

- *Allow management of overtime claims*
- *Monitor and control out of hours usage*
- *Make comparisons to manual timesheets*
- *Validate Working Time Directive activities*

Fitting a TRACKER Reporter unit in each of your vehicles enables you to access all this information about your fleet 24 hours a day through the TRACKER website. It's easy to install, easy to use and delivers immediate results. Make better decisions and save money both in the short term by identifying inefficiencies, and in the long term by having the insight to improve the way your business works. In short, it makes the process of fleet management easier to monitor and manage, whilst realising a positive return on investment.

With unbeatable training and after sales support, we'll make sure you get the most out of TRACKER Reporter. That means you'll be able to start saving money, mitigating risk and providing a better service for your customers straight away.
